

SYLLABUS  
MATH 221 - CALCULUS II  
SECTION 02 - FALL 2021

COURSE SCHEDULE: The following is meant to be a rough guide to the topics that will be covered in the course. The timing may change, but changes will be made clear in class. The suggested exercises are meant to be a minimum number of exercises that should be completed. These exercises are not to be handed in, as opposed to the WebAssign assignments, which will be graded. Students are, however, encouraged to ask questions about these problems in class or in office hours.
