Khristian Rakovsky - Trotsky's Japanese Spy

Khristian Rakovsky was a lifelong supporter and collaborator of Leon Trotsky's. In the 1920s Rakovsky occupied important posts in the Soviet government and joined the Trotskyite opposition. He was exiled to a series of provincial cities for his opposition activity. In 1934, 1936, and 1937 Rakovsky wrote statements in which he claimed to have abandoned Trotskyism. This study concludes that, on the evidence, there can be no doubt of Rakovsky's guilt in serving as Trotsky's agent in Japan and in espionage for Japan against the Soviet Union, and no doubt of Trotsky's guilt as well.

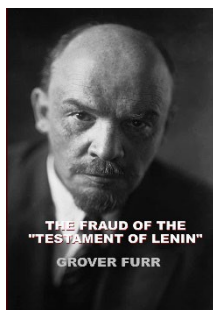

TROTSKY'S COMINTERN CONSPIRACY - THE CASE OF OSIP PYATNITSKY by Grover Furr and Vladimir L. Bobrov.

We examine the conspiracy within the Comintern by studying the investigation file of Osip Aronovich Pyatnitsky, head (secretary) of the Executive Committee of the Communist International (ECCI) from 1923 to 1935. These conspiracies were connected to Leon Trotsky. All the conspirators knew that Trotsky was collaborating with Nazi Germany and militarist Japan for espionage and sabotage against the USSR, and was plotting to lead an armed rebellion against the Soviet government to aid any invasion by Germany or Japan.

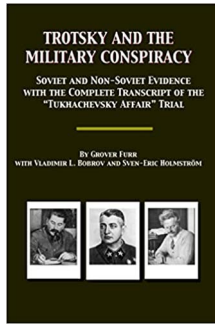

STALIN EXONERATED – FACT-CHECKING THE DEATH OF SOLOMON MIKHOELS by Grover Furr and Vladimir L. Bobrov.

Solomon M. Mikhoels, a noted director in the Yiddish-language theatre in the USSR, was killed in a hit-and-run accident in Minsk on January 12-13, 1948. After the end of the USSR in 1991 documents began to be published alleging that Mikhoels had been killed on Stalin's order. This story is accepted as fact by *all* specialists on Soviet history. By analyzing the texts, we prove that they are crude forgeries. It is a measure of the essential dishonesty of the field of Soviet history that this has not been discovered before.

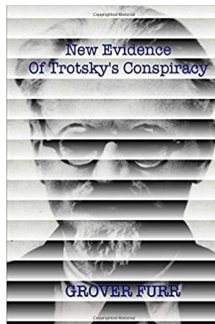

THE FRAUD OF THE 'TESTAMENT OF LENIN'. Based on the research of Valentin A. Sakharov.

In 2003 Professor Valentin Sakharov of Moscow State University published the results of his study of original documents from Lenin's last months and discovered that some, including all the writings critical of Joseph Stalin, are forgeries. This book examines, summarizes, and reorganizes Sakharov's work and includes chapters on Trotsky, Moshe Lewin's book *Lenin's Last Struggle*, and the roles of Nadezhda Krupskaya and Maria Il'ichna Ul'ianova.

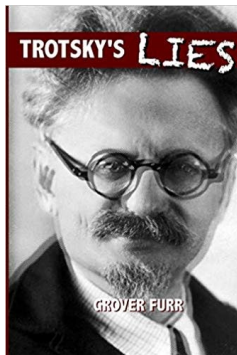

TROTSKY AND THE MILITARY CONSPIRACY by Grover Furr, Vladimir L. Bobrov, and Sven-Eric Holmström.

A complete translation of the June 11, 1937 trial of Marshal Mikhail N. Tukhachevsky and 7 high-ranking co-defendants, together with Soviet and non-Soviet evidence that confirms their guilt. It includes chapters on Leon Trotsky's collaboration with them and with the Nazis, and an outline of the immense consequences for our understanding of Soviet history of the Stalin period, of World War II, and of World history in the 20th century.

NEW EVIDENCE OF TROTSKY'S CONSPIRACY

A study of recently-declassified Soviet documents bearing on Leon Trotsky and his conspiracies against the Soviet government and Party during the 1930s. The documents include Yuri Piatakov's statement of December 19-20, 1936, to Nikolai Yezhov, chief of the NKVD; evidence from the transcript of the June 11, 1937, trial of Marshal Mikhail N. Tukhachevsky and seven accomplices, and a collection of investigative materials from the former NKVD archive concerning the First and Second Moscow Trials of August, 1936 and January, 1937.

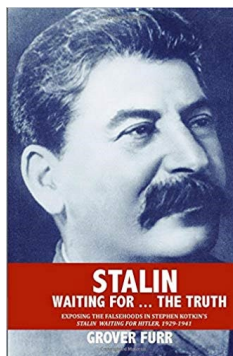

TROTSKY'S LIES. *

A revised and updated edition of the Introduction, and Chapters 13-16 of Grover Furr, "Trotsky's 'Amalgams:' Trotsky's Lies, The Moscow Trials As Evidence, The Dewey Commission." The Harvard Trotsky Archive was opened to researchers in 1980. In it, researchers found evidence that Leon Trotsky deliberately lied many times and about many people and events.

This prompted Grover Furr to check for other evidence of Trotsky's lies in his own writings and in documents from former Soviet archives.

Trotsky lied to an extent scarcely imaginable – until you have read the evidence!

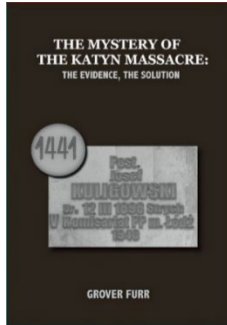

STALIN: WAITING FOR ... THE TRUTH. (This book \$25 + p/h)

Exposing the Falsehoods in Stephen Kotkin's Stalin. Waiting for Hitler, 1929-1941. about * Collectivization * The Famine * The Kirov Murder; * Trotsky's Lies * The Moscow Trials * The Spanish Civil War * The Military Purges * Yezhov's Conspiracy * plus many others

Grover Furr has carefully and methodically studied every one of the hundreds of allegations of atrocity, crime, and misdeeds of any kind that Kotkin, in his enormous book, attributes to Stalin and his closest advisers. Furr has checked every reference, every article and book, that Kotkin cites as evidence. The result: every single "crime" Kotkin alleges is false - a fabrication. Not a single

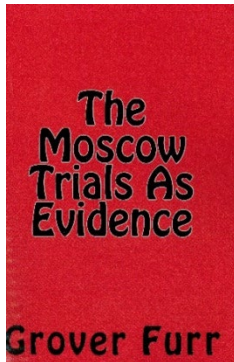

accusation holds up.

THE MYSTERY OF THE KATYN MASSACRE: The Evidence, The Solution.

Who killed the 14,000 – 22,000 Polish POWs in the events known collectively as the Katyn Massacre, or “Katyn”? The “official” viewpoint is that the Soviets, not the Nazis, murdered the Poles, in the “best-documented crime of Stalin.”

Grover Furr has identified, obtained, and studied all the evidence, and has also studied all the supposedly “authoritative” scholarly accounts of Katyn, with skill and. – most important – with objectivity. In this book he lays out the evidence and solves this mystery for once and for all.

THE MOSCOW TRIALS AS EVIDENCE.*

The confessions of the defendants in the three public Moscow Trials of August, 1936, January, 1937, and March, 1938, are conventionally dismissed as fabrications, forced by torture or threats from helpless defendants. **But there has never been even a shred of evidence that this is so.**

Grover Furr has studied the transcripts of the Moscow Trials carefully, and has checked those statements made there against the much greater evidence we now have, mainly from the Trotsky Archive at Harvard and the former Soviet archives. Every statement at the Trials that can be checked, turns out to be accurate. The Moscow Trials defendants testified as they chose. The Trials transcripts are valid evidence. **The defendants were guilty of at least those crimes to which they confessed at**

trial.

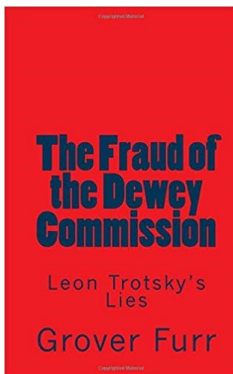

THE FRAUD OF THE DEWEY COMMISSION: Leon Trotsky’s Lies.*

(This book only: \$9.95 + \$4 p/h)

The Dewey Commission, which met in 1937 to investigate the charges made in the Moscow Trials against Leon Trotsky, has been accepted uncritically as a refutation of those charges and a convincing determination that Trotsky was "not guilty."

The present book studies the Dewey Commission proceedings and conclusions in the light of documentary evidence now available and concludes that the Commission's conclusions are faulty on many grounds, among them that **Trotsky deliberately and repeatedly lied to the Commission.**

* These three books are excerpted and updated from *Trotsky’s ‘Amalgams’*.

LEON TROTSKY’S COLLABORATION WITH GERMANY AND JAPAN: Trotsky’s

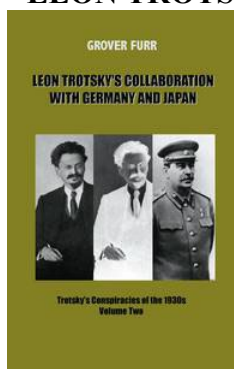

Conspiracies of the 1930s, Volume Two

At the Moscow Trials of 1937 and 1938, some of Leon Trotsky’s followers accused Trotsky of secretly conspiring with Nazi Germany and fascist Japan.

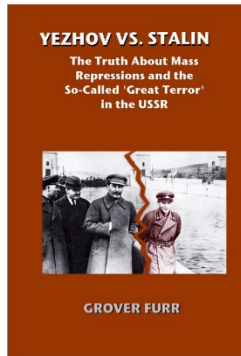

Since Nikita Khrushchev’s “Secret Speech” of 1956 attacking Stalin, these charges have been routinely dismissed as false by Soviet, Russian, and Western historians. But we know now that Khrushchev was lying!

In this book, Furr conducts an expert, objective study of the evidence. He concludes that **Trotsky did indeed collaborate with the Germans and Japanese.**

The proof that Trotsky was guilty of collaboration with the Nazis and Japanese dramatically changes our understanding of Soviet history of the 1930s.

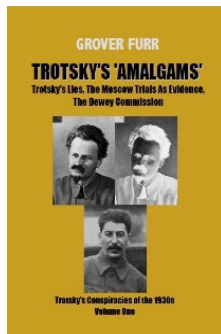

YEZHOV VS. STALIN: The Truth About Mass Repressions and the So-Called 'Great Terror' in the USSR

Yezhov vs. Stalin is the first accurate account of the so-called “Great Terror” in the Soviet Union in 1937-1938. In this book, Grover Furr answers the central questions concerning the mass repressions known as the “Ezhovshchina” or, by anticommunists, the “Great Terror”:

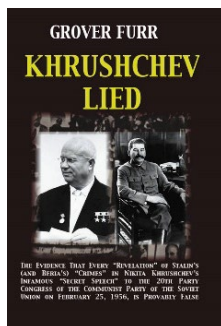

- * What caused it?
- * Did hundreds of thousands of innocent victims meet their deaths?
- * Was Joseph Stalin responsible for these murders, as is universally claimed?
- * **The evidence demands that we conclude that Stalin was innocent and, in fact, put a stop to this massive crime.** But why were Ezhov and his men able to go on killing many innocent people? The present study answers these questions.

TROTSKY'S ‘AMALGAMS.’ Trotsky’s Lies, the Moscow Trials as Evidence, the Dewey Commission. Trotsky’s Conspiracies of the 1930s, Volume One. (*This book \$25 + p/h*)

Drawing upon primary sources from the Harvard Trotsky Archive and from former Soviet archives Grover Furr subjects the testimony of Moscow Trials defendants to a source-critical check and verification. His conclusion: the testimony of the Moscow Trials defendants is genuine, reflecting what the defendants chose to say.

The same primary sources, plus Trotsky's own writings, demonstrate that **Trotsky deliberately lied about virtually everything concerning the Soviet Union** in his writings about the three Moscow Trials of 1936, 1937 and 1938, his writings on the assassination of Sergei Kirov, and in his testimony to the Dewey Commission in 1937.

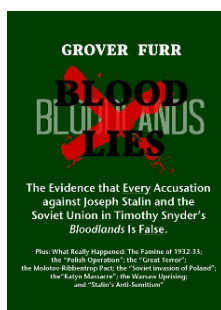

KHRUSHCHEV LIED. The Evidence that Every "Revelation" of Stalin's (and Beria's) "Crimes" in Nikita Khrushchev's Infamous "Secret Speech" to the 20th Party Congress of the Communist Party of the Soviet Union on February 25, 1956, Is Provably False.

In his “Secret Speech” of February 1956 Nikita Khrushchev accused Joseph Stalin of immense crimes.

Khrushchev’s speech was a body blow from which the worldwide communist movement never recovered. It changed the course of history.

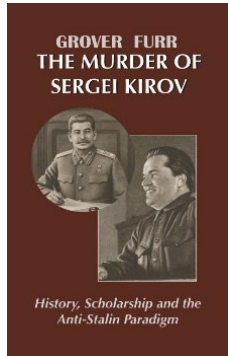

Grover Furr has spent a decade studying the flood of documents from formerly secret Soviet archives published since the end of the USSR. In this detailed study of Khrushchev's speech he reveals the astonishing results of his research: **Not a single one of Khrushchev's "revelations" is true!** Virtually everything we thought we knew about the Stalin years turns out to be false.

The entire “anti-Stalin” paradigm of Soviet history has to be discarded. **The history of the USSR, and of the communist movement of the 20th century, must be completely rewritten.**

BLOOD LIES: The Evidence that Every Accusation against Joseph Stalin and the Soviet Union in Timothy Snyder’s Bloodlands Is False. Plus: What Really Happened in: the Famine of 1932-33; the “Polish Operation”; the “Great Terror”; the Molotov-Ribbentrop Pact; the “Soviet invasion of Poland”; the “Katyn Massacre”; the Warsaw Uprising; and “Stalin’s Anti-Semitism.” (*This book \$25 + p/h*)

Every single “crime” Timothy Snyder alleges in his fraudulent book *Bloodlands: Europe between Hitler and Stalin*, is false – a fabrication. Often Snyder’s sources do not say what he claims. Often Snyder cites anticommunist Polish and Ukrainian secondary sources that do the lying for him. **Not a single accusation is supported by the evidence..**

THE MURDER OF SERGEI KIROV: History, Scholarship and the Anti-Stalin Paradigm.

Was Leonid Nikolaev, Kirov's killer, a lone gunman acting from personal motives whose crime Stalin then "used" to frame and kill real or imagined enemies? Or was his arrest the key event that led to the uncovering "the great conspiracy against Soviet Russia"?

Grover Furr has studied all the available evidence, most of it from formerly-secret Soviet archives. He offers complete and original translations of key historical documents and detailed analysis of their significance.

Furr examines in detail the three latest studies of the Kirov murder. His discovery: **all the "authoritative" studies of the Kirov murder are wrong.**
